# FLOOR PLANS

## MULTI-TENANT OPTION

FIRST FLOOR

\*Can Be subdivided

## Entrance Canopy

A new entrance canopy along Prospect would help create an identity and presence for the new 2nd floor tenant.

According to City of Cleveland zoning regulations, a new canopy would be allowed to project out 6' from the face of the building.

This canopy material could also extend into the building to tie in the existing elevator lobby and entrance space. A cohesive entry sequence gives the second floor tenant a presence at ground level.

## Rooftop Terrace

Assuming the historic easement is for the airspace above the building, a rooftop terrace should be allowable with a few considerations. Any rooftop terrace will need to step back from building parapet so as not to be highly visible from street level. Elements such as railings around perimeter should be glass or not visible from street level. Structures such as pergolas should be permissible as long as they are not enclosed or conditioned which would constitute an additional level.
